Distinctive Trees and Shrubs
for Gardens of the Lower South

THOMASVILLE NURSERIES

"Home of Roses"

THOMASVILLE, GEORGIA

TERMS OF BUSINESS

Location. Main Nursery office, lath-houses, and Trial-Grounds at intersection of Boston and Summerhill roads with Boulevard, 2 miles east of Thomasville. Roses and Evergreen Nursery on Boston Road, 3 miles east of Thomasville. The Thomasville-Boston Road is a link of the Lone Star Trail from Los Angeles to St. Augustine, and is also known as Georgia State Road No. 38 and U.S. Highway No. 84.

Terms. Cash with order or satisfactory references, except to parties of known responsibility.

Transportation at Purchaser's Risk. All transportation expenses except on Roses and Liriope, are to be paid by the purchaser; our responsibility ceases upon delivery, in good order, to forwarding companies.

Substitution. We do not substitute unless so authorized. It is well, however, as the season advances, to name substitute to be used in the event of shortage.

Inspection. Our Nurseries were inspected by a representative of C. H. Alden, state entomologist, Atlanta, Ga., August, 1947, and a certificate to this effect, and that plants are fumigated as required by law, accompanies every shipment. We comply with the various laws of the states into which we ship.

Claims. If, by any possibility, errors should occur, they will be promptly rectified, if claim is made within 10 days after receipt of the goods.

Guarantee. We cannot control conditions after plants leave our hands, and we cannot, therefore, guarantee our plants to live. We do guarantee all stock sent out to be well rooted, true to name, properly packed and shipped according to instructions.

Quantity Rates. Five or more plants at the ten rate; 50 or more plants at the 100 rate.

Prices in this catalog cancel all previous quotations and are subject to change without notice.

Order Early. We cannot too strongly urge the advisability of ordering early. In so doing one gets the pick of the stock and avoids disappointment of possible failure to get order filled complete. Orders may be sent early and stock reserved for later delivery.

Address all communications and make remittances payable to Thomasville Nurseries, Thomasville, Ga.

Visitors, Please Note:

We wish to serve everyone in turn. At the height of the season sometimes many cars are at the nursery at one time. In order that salesmen may know who is "next" please give your name at the office upon arrival. The ladies in the office will then see that you are served in turn and as quickly as possible consistent with adequate and courteous attention to all.

We Serve Visitors

Tuesday, Wednesday, Thursday, Friday, Saturday, from 8.30 A.M. to 5.30 P.M. By appointment Sunday afternoon, 2 to 5.30 P.M.

We Are Closed

All Day Monday
Sunday Morning

LET US SHIP PLANTS BY FREIGHT, EXPRESS AND PARCEL POST

Many of you who receive this booklet will wish to add some new plants to your gardens, and will be unable to come and make selections. To those we say, "Let us ship your plants." For almost half a century a large portion of our business has been the shipping of plants ordered from our annual catalog. Fortunately, our older men, who always do the grading and packing, remain with us, and will render efficient shipping service. Ours is one of the few nurseries in the Southeast geared by experience and equipment to serve well those who order by mail, and we pledge ourselves anew to give your orders prompt, personal and careful handling.

THOMASVILLE NURSERIES
THOMASVILLE, GEORGIA

MRS. CHARLES BELL

Foreword

PRICES in this catalog are the same as last season. We are making a determined effort to keep them down, although many of our production and operating costs have advanced. And there has been no sacrifice in quality; we have put every effort into raising the best.

In this booklet are listed many varieties of plants not obtainable at most nurseries. This is especially true of roses. But while the quality is good, the supply of many items is limited, and we urge you to visit the nursery early this season or mail your order now, even though you may prefer delivery at a later date.

Our half century of growing, testing and offering to the public a wide assortment of ornamental trees and shrubs we believe qualifies us to serve our customers well. We have come a long way in these fifty years since our founder, P. J. Hjort, started a little rose nursery in 1898, and have expanded our production to include many varieties of plants. But ours is still not a huge business. We are still a small enough firm to regard every customer as a friend, and practically every transaction passes through the hands of one of the Hjorts, who grew up in the business and stayed with it because in it was found more pleasure than in any other vocation.

We wish to thank our friends for their patronage in the past. We pledge to old and new customers our best efforts to serve them faithfully.

The Radiances

The Greatest of All the Hybrid Tea Roses

The Radiances give more fine blooms for cutting, over a longer season, than any other Roses! They are by long odds the most generally satisfactory of all varieties. It is hard to have too many Radiances!

CAMELLIA
EMPEROR OF RUSSIA

CAMELLIAS IN AMERICA

by Dr. H. Harold Hume

This is the newest and by far the most complete book on Camellias ever published. The author, Dr. H. Harold Hume, is well known throughout the South for his writings and lectures on all phases of horticulture. This volume represents thirty years of study and observation and deals with all aspects of the subject—culture outdoors and indoors, nomenclature, botany, history, soils, diseases, camellia shows, shipping, and landscaping.

We recommend this book to all Camellia lovers. 666 pages; 181 photographs and drawings, including 49 full-color inserts. Available only from the publisher, J. Horace McFarland Co., Harrisburg, Penna. Price, \$25.50.

CAMELLIAS

for

Lower South Gardens

NOTHING brings such charm and distinction to gardens of the Gulf and Coastal section of the Southland as Camellias. They are at home in an area approximately from Charleston, through Augusta, Macon, Columbus, Montgomery, Meridian, Vicksburg, and New Orleans to the coast. With extra care, lovely Camellias may be grown above these limits. But the area designated is where these charming winter-flowering trees are at their best, and where they give a thrilling display in mid-winter. Camellias and azaleas are a necessity if we are to keep our gardens of the Lower South distinctive.

Design in the garden is rightly regarded as of primary importance, and the kinds of plants used in securing a desired effect are a secondary consideration. But if this pleasing design can be carried out with extra-fine and out-of-the-ordinary plants, then gardens of unusual beauty result. Such plants are the azaleas and Camellias, and gardens in which they are used are immediately lifted out of the commonplace. These shrubs take the place of good evergreen and deciduous shrubs and fill the garden with a glory that is unsurpassed in the winter and early spring.

For many years we have given special attention to the growing of winter and early spring-flowering material, and particularly to Camellias in the past decade. Our Camellias are above the average in quality; practically all we offer this season were grown in fields and woodland beds. Although labor has been short the past few years and production of many things has been curtailed, we have actually grown more Camellias. You will like these Camellia plants!

**COMPLETE PLANT
FOOD MAKES
GARDENING
SUCCESS EASY!**

Plants thrive when they get the proper nourishment they require from the soil. The easy way to be sure your lawn and flowers are properly fed is to feed everything you grow with Vigoro, complete plant food.

Vigoro is clean, odorless, sanitary, and easy to use. And it's economical. You need only 4 pounds of Vigoro per 100 sq. ft.

A PRODUCT OF SWIFT

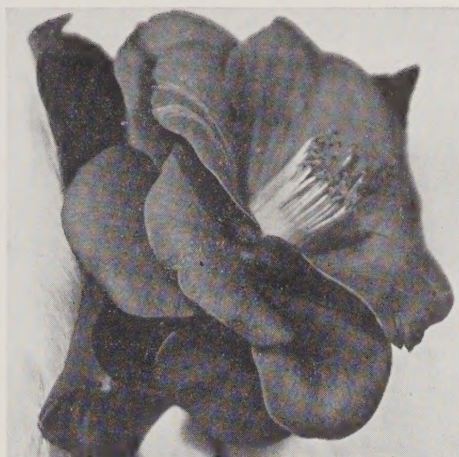

25 lbs. \$1.50, 50 lbs. \$2.50,
100 lbs. \$4.00.

HJORT'S *Fine* CAMELLIAS

GROUP A CAMELLIAS • *New and Rare Varieties*

Adolphe Audusson. Large; semi-double; very dark red, marbled with white. Midseason. 2-yr. grafts: 18 to 24 in.

Adolphe Audusson, Red Sport. Like above except solid deep red. 2-yr. grafts: 18 to 24 in.

Alba superba. Large; semi-double; pure white, showy yellow stamens. 2-yr. grafts: 18 to 24 in., 2 to 2½ ft.

Amabilis. A lovely single white with large cluster of golden stamens. Distinct, rounded, glossy foliage; vigorous bush, long season of bloom. Own-root: 18 to 24 in., 2 to 2½ ft.

Aspacia. Immense flower; peony form; deep red, marbled white. A sport of Emperor of Russia. 2-yr. grafts: 18 to 24 in.

Bessie McArthur. Large; semi-double; deep pink to light red; very hardy. 1-yr. grafts: 12 to 18 in., \$10.00.

Catherine Cathcart. Large; full double; imbricated; soft pink with white spots. Very choice. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 18 in.

Christine Lee. Medium to large; semi-double; even, clear pink. Very profuse bloomer; very hardy. Own-root: 18 to 24 in.

C. M. Hovey. See Mathotiana rubra, Variegated.

Col. Firey. Large; full rose double; deep red. Very late; very hardy. 2-yr. grafts: 2 to 2½ ft. Own-root: All sizes.

Comte de Nesselrode. Large; loose peony form; deep pink, splotted and striped with white. Sometimes called a glorified Herme, but quite different in flower and foliage. A most outstanding Camellia. 2-yr. grafts: 12 to 18 in., \$20.00; 8 to 12 in., \$15.00. 1-yr. grafts: 8 to 12 in., \$10.00.

Daikagura. Large; double peony form; deep pink. Very early bloomer. 2-yr. grafts: 18 to 24 in.

Daikagura Variegata. Fine variegated sport of above. 2-yr. grafts: 18 to 24 in., 2 to 2½ ft.

Debutante. Most popular of all large pink Camellias. Every bloom is perfect, even peony form, delicate, light pink. Foliage is large and deeply serrated. Bush is of compact, symmetrical growth; begins blooming early, flowers over long season. 2-yr. grafts: 18 to 24 in. Own-root: 18 to 24 in., 2 to 2½ ft.

Donckelaari. Large; almost single; red and white variegated, with occasional solid red flower. Very hardy. Ours is the old, true-to-name Donckelaari. No collection is complete without it. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 18 in.

Duchess of Sutherland. Large; semi-double; pure white with occasional pink stripe. Very fine. 2-yr. grafts: 12 to 18 in., 18 to 24 in. Own-root: 18 to 24 in.

Eleanor Hagood. Medium size; full rose double; delicate light pink. One of the select Magnolia Gardens varieties. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Eleanor of Fairoaks. Large; semi-double; deep red, mottled white. Sport of Vedrine, and a lovely Camellia. 2-yr. grafts: 18 to 24 in.

Elizabeth Boardman. Exquisite form and texture combined with large size make this Magnolia Gardens Camellia outstanding. Pure white, semi-double flowers, January through March. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Emperor of Russia. Immense; semi-double; scarlet-red with large outer petals and smaller, incurved petals in center. 2-yr. grafts: 18 to 24 in.

Empress. Very large; almost single; deep rose-pink. One of the hardiest of Camellias. Bush compact; heavy foliage. The favorite deep pink single variety. We highly recommend Empress. 2-yr. grafts: 12 to 18 in., 18 to 24 in., 2 to 2½ ft. 1-yr. grafts: 12 to 18 in. Own-root: 12 to 18 in., 18 to 24 in.

Empress, Variegated. A striking pink and white sport of the above. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 18 in.

Finlandia (Pink Glory). Large; semi-double; light pink; narrow petals and petaloids mixed with stamens. 2-yr. grafts, \$15.00.

Firegold. Very large; peony form; flame-red. Also known as Shah of Persia, Dr. Shepherd and Te Deum. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Glen 40. Large; full double; very dark red. A fine variety, flowering mid-season to late. 2-yr. grafts: 18 to 24 in. Own-root: 18 to 24 in.

Haku-Rakutan (Refugee). Large; almost single; pure white, with long, showy stamens. A most distinctive white. 2-yr. grafts: 18 to 24 in.

Il Tramento. Largest of all Camellias of rose double form. Clear satiny pink, marbled and spotted white; sometimes solid pink flowers on the same bush. Upright growth, with long-pointed, glossy leaves. Known at Mobile as Laurel Leaf. Also believed same as Lallarook. 1-yr. grafts: 12 to 15 in. Own-root: 18 to 24 in.

Imura. Extra large; almost single; pure white, with long, showy stamens. For the many who love singles, here is one of the finest. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

James Hyde Porter. Very large; loose peony form; white with pink stripes. Flowers early, continues long season. Fine new variety from the garden of Dr. W. G. Lee at Macon. 2-yr. grafts: 18 to 24 in.

GROUP A CAMELLIAS. continued

PINK STAR

John Illges. Enormous flower; single; bright red with prominent golden stamens. Possibly the finest Magnolia Gardens single red. 2-yr. grafts: 18 to 24 in.

Kumasaka Variegata. Pink and white sport of the popular Kumasaka. Large; semi-double. 2-yr. grafts: 18 to 24 in., 2 to 2½ ft.

Lady Hume's Blush. A famous old variety, yet rare. Full rose double; white with faint pink tinge. A lovely Camellia. Own-root: 18 to 24 in.

Lady Jane Grey. One of the most beautiful and most perfectly formed of all Camellias. Large; double peony form; deep pink with white marbling. Ours is a superior strain, lighter in color than usual. Like its parent Donckelaari, it is very hardy; blooms on small plants. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 15 in.

Lady Vansittart Variegata. A lovely sport of the pink-flowering variety. Large; semi-double. 2-yr. grafts: 18 to 24 in., 2 to 2½ ft.

La Reine. A beautiful new pink Camellia, introduced as a sport of the pink Lady Mary Cromartie. Semi-double; rose-pink, splotted and spotted white. 2-yr. grafts: 18 to 24 in.

Lindsay Neill. A fine Camellia from Columbus, and one of the most sought-after of newer varieties. Large; semi-double; deep red, splotted white; occasional solid red flower. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Lotus. Largest of fancy whites. Loose peony form. Long, dull green leaves are heavily ribbed. 2-yr. grafts: 18 to 24 in.

Louise Maclay. Large; semi-double; rose-pink. Believed to be of Tea Gardens origin. Ours is from Tallahassee, Fla., where it was named. 2-yr. grafts: 18 to 24 in.

Magnoliaeflora. Large; single; delicate, light pink. Well named. One of the loveliest of all Camellias; should be in every collection. Very hardy for a light-colored variety. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 15 in.

Marchioness of Exeter. Large; peony form; deep pink. Somewhat similar to Debutante, but darker. Own-root: 18 to 24 in.

Marchioness of Exeter, Variegated. A fine sport of the above. 2-yr. grafts: 12 to 18 in.

Marion Mitchell. Large; semi-double; scarlet-red. The best deep red we have had from Magnolia Gardens. 2-yr. grafts: 18 to 24 in.

Marion Mitchell, Variegated. A fine sport of the above variety, identical in every way except color. 2-yr. grafts: 18 to 24 in.

Mathotiana rubra. The finest of all double, dark red Camellias. Huge flowers; perfectly double most of the season; show a few yellow stamens at end of season. Very hardy and flowers over a long season. 2-yr. grafts: All sizes. Own-root: 18 to 24 in., 2 to 2½-ft. specimens.

Mathotiana rubra, Variegated. A fine variegated sport of the above, commonly known by incorrect name, C. M. Hovey. One of the very finest of variegated Camellias. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Mathotiana rosea. Another sport of Mathotiana rubra. Identical with parent in every way except lighter in color. 2-yr. grafts: 18 to 24 in.

Mikenjaku. Outstanding and spectacular. Very large; semi-double; deep pink to light red, with large spots and splotches; opens wide and flat. Large, dark green foliage. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 15 in.

Mrs. Charles Cobb. A very distinctive Camellia. Very dark red, almost black. Semi-double, with rich golden stamens. 2-yr. grafts: 18 to 24 in. Own-root: 18 to 24 in.

Mrs. F. L. Gibson, Herme Colored. A beautiful sport of Mrs. F. L. Gibson, light pink with white edges, splotted deep pink and white. 2-yr. grafts: 18 to 24 in.

Nagasaki. Large; semi-double; red with white spots. 2-yr. grafts: 18 to 24 in. Own-root: 18 to 24 in.

Pink Ball. Very delicate, light pink. Much like Debutante, but not as large. Very late bloomer. Blooms freely on small plants. Own-root: 18 to 24 in., 2 to 3 ft.

Pink Star. A fine salmon-pink Camellia. Large; double peony form. 2-yr. grafts: 18 to 24 in. Own-root: 18 to 24 in.

Prima Donna. Large; semi-double; bright pink, with veined petals. A choice Tea Gardens variety. 1-yr. grafts, \$10.00.

Princess Nagaskie. A beautiful and different Camellia. Very light pink, with distinctive waves of deeper pink. Fairly large flower; semi-double. One of the most admired in our collection. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 15 to 18 in.

Rev. John Bennett. Very large; almost single; salmon-pink. A choice variety from Magnolia Gardens. 2-yr. grafts, 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 15 in.

NAGASAKI

GROUP A CAMELLIAS, continued

Rev. John G. Drayton. Medium size; semi-double; clear, light rose-pink. Another very beautiful Camellia from Magnolia Gardens. 2-yr. grafts: 18 to 24 in. Own-root: 18 to 24 in., 2 to 2½ ft.

Rosea superba. See Mathotiana rosea.

Rose Dawn. Large; full double; rose-pink; imbricated. Almost a pink Alba Plena. 2-yr. grafts: 18 to 24 in.

Shiro-Botan. Large; semi-double; pure white. Fast growing for a fancy Camellia. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Single Red. Large; single; deep red. Anthers are bright yellow, filaments pink. One of the newer Overlook Camellias. 2-yr. grafts: 18 to 24 in.

Smiling Beauty. One of the most refined and beautiful of newer Camellias. Large; semi-double; light pink, slightly deeper than Magnoliaeflora. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Snowdrift. One of the most genuinely lovely of Camellias, and perhaps the hardest white. Perfectly formed, regular, semi-double, pure white flowers, with beautiful golden stamens. Bush of compact, symmetrical growth. 2-yr. grafts: 18 to 24 in., 2 to 2½ ft. 1-yr. grafts: 12 to 18 in.

Triphosa. Largest of all single Camellias. Pure paper-white without a tinge of other coloring. Very large petals, and one compact ring of long, golden stamens in center of flower. Very select. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Vashti. A lovely Camellia from Vashti School, Thomasville, Ga. Easily the most choice of all variegated Camellias of the standard rose-double form. Medium size; freely produces blooms of rose-pink, splashed with Red. Occasional solid red flowers on same bush make it very distinctive. Double in form most of the season; shows some stamens at end of season. Own-root: All sizes.

Vedrine. Large; loose peony form; deep red. 2-yr. grafts: 18 to 24 in.

Victor Emanuel. Finest of dark red Camellias with stamens. One of the most striking of all varieties; photographs hardly do it justice. Very large; semi-double; deep red. Bush is compact, shapely grower. 2-yr. grafts: 18 to 24 in., 2 to 2½ ft., 2½ to 3 ft. Own-root: All sizes.

Victory White. Large; double peony form; pure white. Most new whites are semi-double; here is one that is different and distinctive. 2-yr. grafts: 12 to 18 in., 18 to 24 in.

Ville de Nantes. Extra large; semi-double; red and white. Irregular formation. Large petaloids stand up in center like rabbit ears. Distinctive and spectacular. 2-yr. grafts, well branched: 8 to 12 in., \$15.00; 12 to 18 in., \$20.00.

White Crane. Very large flower; very showy. Semi-double; pure white; golden stamens. 2-yr. grafts: 18 to 24 in.

White Giant. All that the name implies. Very large; semi-double; pure white. Large, dark green foliage. Strong and satisfactory. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 18 in.

White Queen. Very large; semi-double; pure white. Some flowers are 6 inches across. Possibly the best of the fine new white Camellias from Overlook. 2-yr. grafts: 12 to 18 in., 18 to 24 in. 1-yr. grafts: 12 to 18 in.

Woodville Red (Kollock; Martin Roberts). Very large; semi-double to peony-form; strawberry-red. One of the most admired of all Camellias. 2-yr. grafts: 12 to 18 in., 18 to 24 in., 2 to 2½ ft.

PRICES OF GROUP A CAMELLIAS

2-yr. grafts on 5 to 8-yr. understocks:	
12 to 18 in.	\$10.00 to \$12 00

Home Gardening for the South

is the name of a delightful and helpful monthly magazine. We have no financial interest in it and receive no commissions. We heartily endorse it as a publication for garden lovers of the Gulf and Coastal section. Annual subscription \$1.50. Remit to: Home Gardening for the South, 814 St. Louis St., New Orleans 16, La.

IMURA

AZALEA and CAMELLIA FERTILIZER

For maximum growth, bloom, and general well-being, it is necessary to feed your plants properly. Unfortunately for the Azalea and Camellia grower, most commercial fertilizers are made neutral by the use of limestone, and are not suitable for acid-loving plants.

To meet this need we keep in stock Reliance Azalea and Camellia Special, a commercial fertilizer which is acid, easy to apply, and has no objectionable odor. It supplies a balanced and complete food for these plants. With your purchases you will receive a little booklet giving much information on the planting and care of Azaleas and Camellias.

Prices of Reliance Azalea and Camellia Special Fertilizer: 25 lbs. \$1.50, 50 lbs. \$2.50, 100 lbs. \$4.00, f.o.b. Thomasville, Ga.

PEAT HUMUS for SOIL BUILDING

Most soils in the Southeast are lacking in humus, and we cannot too strongly urge the use of Peat Humus (sometimes called Peat Moss) to correct the deficiency. Peat Humus builds up the texture of the soil and promotes root growth and the assimilation of fertilizers and soil elements. While it is of value in building up soils for growing any kind of trees and shrubs, it is of especial merit in the culture of Azaleas and Camellias.

We are agents for Florahome Peat Humus, and we guarantee this Peat to be absolutely free of seeds, sand, and roots. It is shipped in sacks. \$1.50 per sack, f.o.b. Thomasville, Ga. Sacks average 75 lbs.

SEMI-DOUBLE BLUSH

Plants as Gifts

Camellias, Azaleas, etc., make delightful gifts to send at Christmas, on birthdays or any special occasions. Such gifts are lasting and become more beautiful as time goes along. Send us your card, or authorize us to write your name on a special one, and we will place in an envelope, attach to the plant, and ship according to your instructions. If you wish, we will forward transportation prepaid and bill you with the actual cost. Please send such orders as far in advance of shipping date as possible. The supplying of gift plants for our customers has become one of our specialties.

LADY VANSITTART

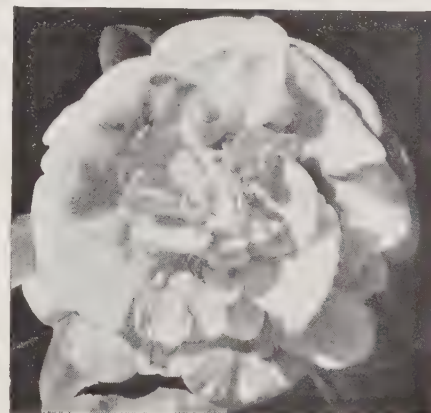

HERME

AZALEAS and CAMELLIAS

By H. HAROLD HUME

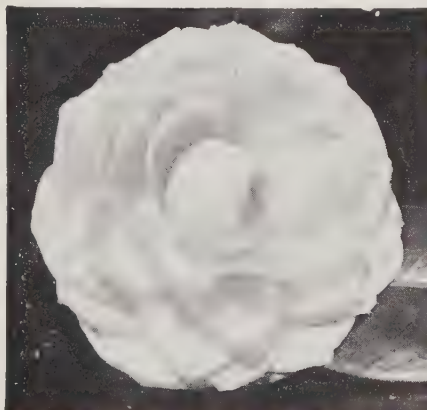

A valuable book of practical information dealing with these beautiful, increasingly popular and distinctively Southern shrubs. Thoroughly describes varieties best suited for various uses and discusses questions of culture, such as soils, fertilization and general care. 98 pages. Cloth, \$1.85, post-paid.

MONARCH

CLIVEANA

ELIZABETH

PROF. C. S. SARGENT

Alba Plena. Acme of perfection in double white. Full rose-double form; pure white, wax-like. Very early. 18 to 24 in.

Bella Romana. Medium; very double; peppermint-candy pink and white variegated. 12 to 18 in.

Candidissima (White Star). Medium size; rose-double; pure white; incurved petals, giving star-like appearance. 18 to 24 in.

Chandleri Elegans. The standard of perfection in Camellias; an old variety but one here to stay; always hardy, always satisfactory. Large; peony form; deep pink with white splotches. Large outer petals with many petaloids in center. All sizes.

Derbiana. Large; carnation form; very dark red flower. One of the fast growing and most symmetrical of large-flowered Camellias. All sizes.

Eleanor Franchetti. Very large; double peony form; creamy white with few pink stripes. Very late bloomer. 12 to 18 in.

Elizabeth. Medium size; pure white, occasional flower has pink stripe; perfect rose-double form. Blooms midseason to late. All sizes.

Governor Mouton. Medium size; semi-double; blood-red, blotched white. Vigorous grower; loose and spreading habit. 18 to 24 in., 2 to 3 ft.

Herme. Here is truly an outstanding Camellia, always lovely, always one of the hardiest. Large; loose peony form; light pink with white edges and pink and red splotches. All sizes.

Herme, Pink. A beautiful clear pink sport of the variegated Herme. Like its parent, is very hardy. 12 to 18 in., 18 to 24 in.

Imperator, Georgia. Always perfectly formed, double peony-form flowers, deep pink to light red. Leaves dark green; bush compact and symmetrical. 12 to 18 in., 18 to 24 in.

Imperator, California. Large; loose peony form; light red. Very vigorous grower, and a free bloomer. 12 to 18 in., 18 to 24 in.

Kumasaka. Medium; semi-double; deep pink. Free bloomer on even smallest plants. Late. All sizes.

Lady Vansittart. Medium size; almost single; rose-red, with golden stamens in center. Glossy green foliage; symmetrical, thrifty bush. 12 to 18 in., 18 to 24 in.

Lady Vansitti (Davis Dark Red). Carnation form; crimson-red. Bush is compact and symmetrical in growth. Stiff, narrow, sharply pointed, dark green foliage. Not to be confused with the almost single Lady Vansittart. Profuse bloomer; very late. One of the hardiest of all Camellias. 8 to 12 in., 12 to 18 in., 18 to 24 in.

Marianna Gaete (Lady Marion). Large; rose-double; bright rose-pink. Very large, wide leaves. Bush very symmetrical. Entirely satisfactory. 12 to 18 in., 18 to 24 in.

Martha Wright. A vigorous and showy Camellia which developed on the grounds of the late B. H. Wright, of Thomasville, and is named in honor of his wife. Flowers of medium size; semi-double, almost single; clear pink. A profuse bloomer. Has the appearance of a glorified Akebono. 12 to 18 in., 18 to 24 in.

Monarch (Honneur d'Amerique). Very large; double peony form; first row of petals imbricated, others small, compact and ruffled. Deep pink to light red, often marbled white. One of the finest of all peony-form Camellias. All sizes.

Mrs. F. L. Gibson. A very unusual single-flowered Camellia raised by Mr. F. L. Gibson, Thomasville, Ga., and named in honor of his wife. Mostly pink and white variegated, but some solid pink or red flowers. Very early, and flowers all through the Camellia season. 12 to 18 in., 18 to 24 in.

Mrs. F. L. Gibson, Pink. Sport of the above, but flowers average large, and always clear pink. Like the parent, this is a very vigorous grower and has the same rather rounded, distinct foliage. A good single. 12 to 18 in., 18 to 24 in., 2 to 2½ ft.

Nobilissima. Medium size; loose peony form; creamy white. An early bloomer. 8 to 12 in., 12 to 18 in., 18 to 24 in.

Otome. A beautiful rose-pink sport of Elizabeth. Full, rose-double; compact, rounded bush. 18 to 24 in., 2 to 2½ ft.

Pink Perfection. All that the name implies. Small, rose-double flowers of shell-pink color, in great profusion. Bush symmetrical in growth, starts flowering early, and continues through most of the Camellia season. Always dependable, always satisfactory. All sizes.

Pope Pius IX. See Reine des Fleurs.

Prince Eugene Napoleon. See Reine des Fleurs.

Prof. C. S. Sargent. One of the great Camellias. Large; double peony form; high, pincushion center; solid crimson color. Early. Should be in every collection. All sizes.

Rainy Sun. Medium large, semi-double, rose-red flowers. Twisted, rather narrow, dark green foliage. 12 to 18 in., 18 to 24 in.

Reine des Fleurs. Large; rose-double; deep pink at beginning of flowering, changing to vermilion-red in colder weather; toward end of season most petals faintly tipped white. Upright and symmetrical grower, hardy and vigorous. All sizes.

Rena Campbell (Variabilis). Most variable of all Camellias. Medium large; mostly semi-double; generally variegated white and shades of pink, but occasional solid red, solid pink, and almost white flowers. 12 to 18 in., 18 to 24 in.

SNOWDRIFT

Semi-Double Blush. Hardest of light pink Camellias. Almost single; blush-white. Bush fast growing and compact; heavy bloomer. A chaste and beautiful Camellia. All sizes.

Tricolor. Almost single; white with red and pink stripes and splotches. All sizes.

AZALEA and CAMELLIA FERTILIZER

For maximum growth, bloom, and general well-being, it is necessary to feed your plants properly. Unfortunately for the Azalea and Camellia grower, most commercial fertilizers are made neutral by the use of limestone, and are not suitable for acid-loving plants.

To meet this need we keep in stock Reliance Azalea and Camellia Special, a commercial fertilizer which is acid, easy to apply, and has no objectionable odor. It supplies a balanced and complete food for these plants. With your purchases you will receive a little booklet giving much information on the planting and care of Azaleas and Camellias.

Prices of Reliance Azalea and Camellia Special Fertilizer: 25 lbs. \$1.50, 50 lbs. \$2.50, 100 lbs. \$4.00, f.o.b. Thomasville, Ga.

THOMASVILLE NURSERIES
THOMASVILLE, GEORGIA

GROUP C CAMELLIAS

The Best of the Older Varieties

Althaeiflora. Medium; semi-double; orange-pink. Large, twisted foliage. 8 to 12 in., 12 to 18 in., 18 to 24 in.

Austill Pink. Medium; semi-double; deep pink. Upright bush; fast grower. 12 to 18 in., 18 to 24 in.

Bealei Rosea (Dixie). A lovely and profuse variety; rose-double; clear rose-pink color. Dark, pointed foliage; vigorous, symmetrical growth; very hardy, blooms long season. 8 to 12 in., 12 to 18 in., 18 to 24 in.

Brown's Red. Medium; semi-double; dark red; late bloomer. 12 to 18 in.

Carnation (Christmas Glory). Carnation form; glowing, bright red. In this section usually a mass of colorful bloom at Christmas time. Hardy and vigorous; one of the best of the older varieties. All sizes.

Cliveana. Medium; loose peony form; salmon-pink. Very late. Hardy and fast grower. 8 to 12 in., 12 to 18 in., 18 to 24 in.

Concordia. Medium; peony form; pink, striped white. 8 to 12 in., 12 to 18 in.

Gloire de Nantes (Leana Superba). Medium large; semi-double; deep watermelon-pink, almost red; yellow stamens. Very large, dark green, distinctive foliage. Late bloomer. Very hardy and desirable. All sizes.

Gloire de Nantes, Variegated. Sport of the above, identical in every respect except flowers splotted with white. 12 to 18 in., 18 to 24 in.

Harlequin (Sponge). Large; peony form; shell-pink to salmon-pink. 8 to 12 in., 12 to 18 in.

Jarvis Red. Medium large; semi-double; deep blood-red flowers with golden stamens. Dark green foliage. Vigorous grower. 8 to 12 in., 12 to 18 in., 18 to 24 in., 2 to 2½ ft.

Kellingtonia. Flowers shaped like Chandleri Elegans but smaller and red and white variegated. Large foliage. 12 to 18 in., 18 to 24 in.

Lilyi. Medium; rose-double; pearly white; profuse bloomer, midseason through late. Fast-growing, symmetrical bush. 8 to 12 in., 12 to 18 in.

Maurice Hurst. Local name of a fine Camellia at Pelham, Ga., imported from France many years ago and name lost. Very large, loose, semi-double, salmon-rose flowers. Glossy foliage. Fast-growing, upright bush. All sizes.

Meigs Variegated. Medium; rose-double; rose-pink, usually spotted white. Distinct, glossy, narrow foliage. Fast grower; early and profuse bloomer. 8 to 12 in., 12 to 18 in.

Mrs. Abby Wilder. Medium; peony form; somewhat like Prof. Sargent; white, often with faint pink stripes. Compact and excellent grower. 8 to 12 in., 12 to 18 in., 18 to 24 in.

Sarah Frost. Full, rose-double; rose-pink to light red. Vigorous grower; shapely bush, profuse bloomer. A highly satisfactory variety. All sizes.

T. K. Variegated. Medium; semi-double; light pink, with darker pink margin; elegant form and coloring; large cluster of yellow stamens. Small leaves. Compact, fast grower. 8 to 12 in., 12 to 18 in., 18 to 24 in.

HOME GARDENING FOR THE SOUTH

is the name of a delightful and helpful monthly magazine. We have no financial interest in it and receive no commissions. We heartily endorse it as a publication for garden lovers of the Gulf and Coastal section. Annual subscription \$1.50. Remit to: Home Gardening for the South, 814 St. Louis St., New Orleans 16, La.

PINK
PERFECTION

QUALITY IN CAMELLIAS

Nearly all of our Camellias were grown in beds in lath-houses and woodland, some larger sizes in open fields. All are well-branched, thrifty plants.

The growing of top-quality Camellias has become our principal interest. We are sure we can please you.

KUMASAKA

PEAT HUMUS FOR SOIL BUILDING

Most soils in the Southeast are lacking in humus, and we cannot too strongly urge the use of Peat Humus (sometimes called Pea Moss) to correct the deficiency. Peat Humus builds up the texture of the soil and promotes root growth and the assimilation of fertilizers and soil elements. While it is of value in building up soils for growing any kind of trees and shrubs, it is of especial merit in the culture of Azaleas and Camellias.

We are agents for Florahome Peat Humus, and we guarantee this Peat to be absolutely free of seeds, sand, and roots. It is shipped in sacks. \$1.50 per sack, f.o.b. Thomasville, Ga. Sacks average 75 lbs.

PROF. C. S.
SARGENT

HJORT'S Thomasville Roses

50 Years with Roses

SINCE 1898 the growing of quality Rose plants has been a specialty with us. From many hundreds of varieties we have selected those found to be the best for the Southeast. We do not offer the endless list of varieties found in up-country catalogs, nor do we confine our selection to Hybrid Teas. To serve the fullest requirements of our customers, we offer the best in the Old-Fashioned Teas, the Hybrid Teas, Hybrid Perpetuals, Floribundas, Polyanthas, and Climbers, listing each class separately.

We have another very good crop of Roses, grown under ideal conditions. You will like these Roses, budded on stocks suited to the Southeast and guaranteed true to name. We exercise every care in digging properly, packing roots in moist sphagnum moss and wrapping well, so that the bushes will reach you safely. While we have increased our Rose production somewhat, we still do not have enough, and we urge ordering early.

Roses thrive in most garden soils capable of growing flowering trees and shrubs. Dig holes at least 18 inches in depth and width, and use several shovelfuls of well-rotted cow manure; or if this is not available, use peat humus, or 50 per cent of each. Set the plants just deep enough to cover the bud union, which means 1 or 2 inches deeper than they stood in the nursery. Pack well and water thoroughly. In the spring use a balanced commercial fertilizer. Vigoro is highly recommended and is obtainable in any size package desired. The American Rose Society's handbook, "What Every Rose-Grower Should Know," makes Rose growing easy by providing the answers to questions on planting and care when you need them. We recommend the use of this little reference book.

While we have somewhat further increased production, we still will not have enough Roses to last the season through. And there is no way of telling in advance just how long the supply of certain varieties will last. While we fill orders with first-choice varieties as long as they last, we respectfully request your permission to substitute intelligently with varieties of the same class, similar color, labeled true to name, and of equal or greater value where certain kinds have become sold out as the season advances.

Dependable OLD ROSES

We offer many varieties that are time tested and proved, such as Old-Fashioned Teas, Climbers, and Floribundas, not usually listed in most catalogs. The old-timers may not be as flashy as some of the new ones, but you'll love them for their persistence and dependability. There are many beautiful and fragrant Roses in these long-life varieties.

THOMASVILLE NURSERIES
THOMASVILLE, GEORGIA

Hybrid Tea Roses

BRIARCLIFF

Prices of Hybrid Tea Roses: 2-yr., No. 1 plants, 90 cts. each, \$8.50 for 10, \$80.00 per 100, except as noted. 5 or more at 10 rate; 50 or more at 100 rate. We pay transportation on Roses.

Better Times. Patent 23. Cerise-red; pointed buds on long stems. Fine for cutting. \$1.35 each.

Betty Uprichard. Carmine-salmon, long-pointed buds. Vigorous bush; free bloomer.

Briarcliff. Rose-pink, large, double and fragrant. Fine for cutting.

Caledonia. White. Large; double; high-centered flower on stiff stems.

Charles K. Douglas. Scarlet-crimson; stiff stems. Strong plant.

Condesa de Sagato. A Spanish novelty of high coloring—coppery red and yellow.

Crimson Glory. Patent 105. This dark red Rose on heavy stems is one of the best patented red Roses. \$1.50 each.

Dainty Bess. Charming large single wild-rose-pink flowers in clusters. For exhibition, disbud, leaving one bud to make a large flower.

Eclipse. Patent 172. Long, streamlined buds of golden yellow. Easily the best patented yellow Rose. \$1.35 each.

Edith Nellie Perkins. Deep pink, shaded salmon.

Editor McFarland. Deep pink, comparable to Radiance in growth and blooming. During the hottest weather is the best pink Rose. Fine for cutting.

Etoile de Hollande. Brilliant crimson. Fairly double, fragrant blooms on long, strong stems. The most generally satisfactory and successful of deep red Roses.

Golden Charm. Medium to golden yellow. A sport of Talisman.

Golden Dawn. Bud sunflower-yellow, flushed old-rose; flower double, perfectly formed, fragrant, sunflower-yellow, passing to lemon-yellow with age. Possibly the best of yellow Roses for the Southeast.

Golden Ophelia. Yellow sport of the popular cutting variety.

Kaiserin Auguste Viktoria. Snowy white with slight lemon tint at center. The most generally satisfactory of white Hybrid Teas.

VIGORO for ROSES, EVERGREENS and FLOWERING SHRUBS

Everything growing needs food, and you will find Vigoro to be a very satisfactory food for your Rose bushes, shrubs, and grass, as well as vegetables. It is a scientifically compounded, well-balanced plant-food that will improve the vigor and appearance of everything you grow. 25 lbs. \$1.50, 50 lbs. \$2.50, 100 lbs. \$4.00.

Killarney Queen. Sport of Killarney. Bud large, long-pointed; flower large, semi-double, open; very lasting. Darker, larger, better than its parent.

Luxembourg. Deep yellow. Beautiful bud and full flower.

Mrs. A. R. Waddell. Apricot-pink. An old favorite.

Mrs. Charles Bell. Sport of Radiance. Identical in vigorous growth and free-flowering habit over a long season. Shell-pink to salmon-pink.

Mrs. Pierre S. du Pont. Deep golden yellow.

Peace. Patent 591. Soft yellow flushed and edged pink. A beautiful new variety; large and vigorous. \$2.00 each.

Poinsettia. Long, well-formed buds; poinsettia-scarlet.

President Herbert Hoover. Flame-pink, scarlet and yellow; long-pointed buds; strong stems.

Priscilla. Large, double pink.

Radiance. Carmine-pink, on strong stems. A vigorous, free bloomer over long season. By long odds the most popular of all pink Roses.

Red Radiance. Easily the leading red Rose, for like its parent, it is practically perfect in size, stem, color, growth, freedom of bloom and persistency.

Roslyn. Golden yellow buds; flower opens lighter. Bud long-pointed, flower large. A better grower than most yellow Roses.

Rouge Mallerin. Beautiful deep red, pointed bud and large, double flower. Very fragrant. Strong stem. This comparatively new red Rose is a great favorite where known.

Soeur Therese. Long-pointed, chrome-yellow buds, opening to daffodil-like flowers.

Talisman. Brilliant red and gold buds, opening to orange-yellow, pink-tinted flowers.

White Radiance. Sport of Radiance. A good grower and bloomer, but not so double as its parent. \$1.00 each.

White Killarney. Sport of Killarney. A good white Rose.

Yellow Talisman. Buds golden yellow, long-pointed; flowers open somewhat lighter.

ROUGE MALLERIN

Floribunda Roses

The term "Floribunda" is comparatively new, and is used to designate bush Roses producing clusters of blooms without interruption from early April till heavy frost. They were formerly called "bedding Roses" and are used for mass color effect, although most varieties are lovely in certain cut-flower arrangements.

The Floribundas we grow are thrifty varieties, even to the most dwarf kinds. More of these charming Roses should be grown in beds and borders.

Prices of Floribunda Roses:

90 cts. each, \$8.50 for 10, \$80.00 per 100

5 or more at 10 rate; 50 or more at 100 rate

We pay transportation on Roses

Cecile Brunner. The "Sweetheart Rose." One of the treasures of Old South Rose-gardens, just as valued today as in the past. A Tea-Polyantha developing into a large, vigorous bush and producing an abundance of small, double pink blooms in clusters.

Else Poulsen. Large; semi-double; bright rose-pink. Vigorous, upright grower. A great favorite in the Southeast.

Fairy Cluster. A beautiful, miniature Dainty Bess. One of the most charming of all Roses. Thrifty grower, profuse bloomer.

Gruss an Aachen. Large; double; salmon-pink flowers on small, compact bush. Very fine.

Improved Lafayette. Large; semi-double; cherry-red. Very thrifty grower; profuse and constant bloomer.

Mrs. R. M. Finch. Light rose-pink. Sweetheart type.

Perle d'Or. The salmon "Sweetheart Rose." A Tea-Polyantha variety growing into a large, healthy bush that produces great quantities of small, double flowers in clusters.

FLORIBUNDA ROSE, ELSE POULSEN

DWARF POLYANTHA ROSES (Baby)

Prices of Dwarf Polyantha Roses:

90 cts. each, \$8.50 for 10, \$80.00 per 100

5 or more at 10 rate; 50 or more at 100 rate

Chatillon Rose. Small, double, rose-pink flowers borne profusely over a long season.

Golden Salmon Superior. Improved Golden Salmon. More lasting in sun.

Sparkler. A sparkling red, double Polyantha. One of the best of the newer kinds.

Roses are scarce this season. If possible, please allow us to substitute when sold out of first-choice varieties

FLORIBUNDA ROSE, MRS. R. M. FINCH

HYBRID PERPETUAL ROSES

This class of Old-Fashioned Roses is rapidly coming back into favor in our Southland. All of this group produce very large, fragrant blooms in the spring, and some, like Paul Neyron and Frau Karl Druschki, bloom all summer long, too. These Roses are easy to grow, and those who plant them can expect much Rose pleasure.

Prices of Hybrid Perpetual Roses:

90 cts. each, \$8.50 for 10, \$80.00 per 100

5 or more at 10 rate, 50 or more at 100 rate

We pay transportation on Roses

Duchess of Sutherland. One of the most beautiful of Hybrid Perpetuals. Large, very double, pointed buds of lovely peach-pink color, opening to handsome flowers.

Frau Karl Druschki (White American Beauty). This is the one pure paper-white Rose without a tinge of pink or lemon. Very large and very double.

Georg Arends. Soft rose-pink. Cup-like bud and large flower, very fragrant.

J. B. Clark. Intense crimson. In this section easily the favorite of the deep red Hybrid Perpetuals. Well-formed buds, very large and double.

Paul Neyron. Greatest of all pink Hybrid Perpetuals. Immense, cup-like bud; perfect, well-formed, open flower. We have been short of stock of this Rose for years, but now have many more plants of finest quality.

HYBRID PERPETUAL ROSE, PAUL NEYRON

THOMASVILLE NURSERIES
THOMASVILLE, GEORGIA

HJORT'S *Fine Old-Fashioned Tea Roses*

The Teas are the great Roses of the Lower South, adapted to hot, moist summers and freer of mildew or black-spot than Hybrid Teas in this section. All are excellent bloomers from early spring till coldest weather, and some, like Maman Cochet, William R. Smith, and Mme. Melanie Soupert, are fine cut-flower varieties. All make large bushes which live for many years. Give your Tea Roses twice as much room as Hybrid Teas. While we have a good assortment of varieties and the plants are strong, 2-yr. No. 1 stock, the supply this season is limited.

Prices of Tea Roses,
except as noted:

2-yr. No. 1 plants, 90 cts.
each, \$8.50 for 10,
\$80.00 per 100,
transportation prepaid.
5 or more at 10 rate;
50 or more

PLANT TEA ROSES

Baroness Henriette Snoy. Bright rose-pink; large, double, well-formed flowers. One of the best cut-flower varieties. We believe we are the first firm in America to distribute this Tea Rose. \$1.00 each.

Bon Silene. Salmon-rose to carmine; large; fairly double; fragrant. Growth vigorous; profuse and constant bloomer.

Bridesmaid. Clear silvery pink; double; fragrant.

Comtesse Riza du Parc. Almost the color of the Hybrid Tea, Mrs. Charles Bell—salmon to shell-pink. Looks like a pink form of Safrano; excellent bloomer.

Duchesse de Brabant. Soft shell-pink; bud short, globular; open, cupped flower. Growth vigorous and bushy. Long a favorite Tea.

Freiherr von Marschall. Carmine-red; double. Vigorous and constant; one of the best red Teas.

Julius Long. Coppery yellow, outside petals deep pink; small, double flower.

La Sylphide. Semi-double; light pink. Small flower. A rank grower and free bloomer.

Louis Philippe. (Bengal.) Deep red; foliage dark and glossy. Blooms best in fall and continues through mild winters. Fine for hedges.

Maman Cochet. Bud large, long pointed; flower large, double, fragrant, clear pink. One of the finest cut-flower Teas.

Marie van Houtte. Canary-yellow, petals tipped pink. Large, fairly double flowers borne in profusion over a long season. Foliage dark and luxuriant. Should be in every collection of Teas.

Mlle. Franziska Kruger. Coppery pink; long-pointed buds.

Mme. Lombard. Carmine-pink, deepening to almost red by fall; large, double, well-formed flowers. Strong grower and profuse bloomer. A favorite in the South and generally considered the greatest of Tea Roses.

Mme. Melanie Soupert. Salmon-yellow, shaded pink. An old Rose, but one of the best. Large, very double flowers on stiff stems.

Monsieur Tillier. Small, double, dark red flowers give this Tea Rose the appearance of a Floribunda. May well be called the "Red Sweet-heart Rose." Comparable to Cecile Brunner in growth and bloom. \$1.00 each.

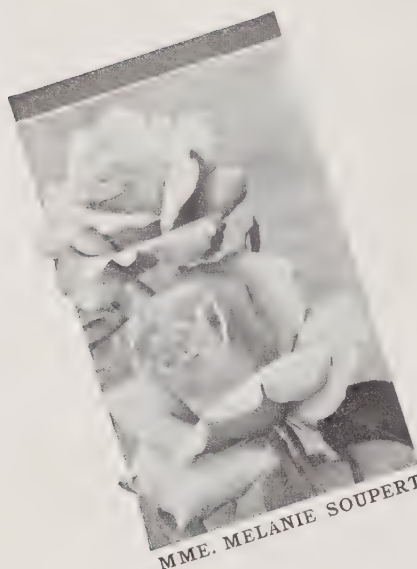

Mrs. B. R. Cant. Deep rose to light red; large, double flowers. Vigorous and profuse. One of the best of all Tea varieties.

Mrs. Dudley Cross. Most vigorous of all yellow Tea Roses. Light yellow, long, Cochet-like bud; immense flowers. Wood thornless.

National Emblem. Long-pointed, crimson buds. Free bloomer; vigorous.

Old Gold. Clear pink, shaded gold. A rare and attractive Tea Rose that is well named. \$1.00 each.

THOMASVILLE NURSERIES
THOMASVILLE, GEORGIA

MME. MELANIE SOUPERT

BARONESS HENRIETTE SNOY

COMTESSE RIZA DU PARC

HJORT'S *Old-Fashioned Tea Roses*

Papa Contier. Rose-red; fine, long-pointed buds; large, semi-double flower.

Princesse de Sagan. An old, deep red Tea Rose. We found this variety in an old garden in 1946. \$1.00 each.

Safrano. Saffron-yellow. Very vigorous bush and free bloomer. A very old, dependable Tea, appreciated where it is known.

Sunny South. Very vigorous and prolific old Tea. May be a French variety renamed years ago. Two-tone, yellow and pink flowers.

White Maman Cochet. Sport of Maman Cochet. Large; double; pure white with slight pink tinge. Easily the best white Tea Rose.

William R. Smith. Here is the finest cut-flower variety of all the Teas. Large, double, long-lasting flowers of blush-pink color, on long, stiff stems. Always a favorite, always satisfactory.

Other Tea varieties in limited supply: Clotilde Soupert, Comtesse de Durinas, Devoniensis, Mrs. Myles Kennedy, Mme. Camille and Zelia Praedel. Also these we have discovered in old gardens, but to date have not found names: Coppery Pink; Double Deep Pink; Small Very Dark, Double Red; Wright Clear Pink.

MAMAN COCHET

WILLIAM R. SMITH

MRS. B. R. CANT

Climbing Roses

Prices of Climbing Roses, except as noted:

2-yr. No. 1 plants, 90 cts. each, \$8.50 for 10, \$80.00 per 100, transportation prepaid. 5 at 10 rate; 50 at 100 rate.

In our Southland, climbing Roses are lovely for many uses. They may be planted on arbor, trellis, fence, tied to poles or set on embankments. The Rambler Roses (R) produce a great profusion of bloom in the spring and sometimes repeat to some extent in the fall. The Noisettes (N), the Climbing Teas (CT), and the Climbing Hybrid Teas (CHT) bloom intermittently from early spring till cold weather. Some of the latter, like Cl. Talisman and Cl. Luxembourg, because of great vitality, are used in preference to the bush form of these Roses.

Since many nurseries produce too few climbing Roses, we are growing them rather extensively, in an effort to give a better assortment of Rose varieties to gardens of the Southeast. We include some of the finest older varieties that have become scarce.

American Pillar. R. Beautiful single Roses borne in clusters; deep pink with white eye.

Black Boy. CHT. Deep velvety crimson; large; semi-double.

Chromatella (Cloth of Gold). N. Sulphur-yellow; large; fragrant. An excellent old Rose.

Cl. Caledonia. CHT. Strong climbing sport of the beautiful, pure white bush variety.

Cl. Cecile Brunner. Mlt. A strong climbing form of the favorite Sweetheart Rose. Bears a great profusion of small, double, pink flowers in clusters.

Copper Glow. HW. Deep coppery orange, the latest color sensation; delightful spicy fragrance. A Brownell Rose. \$1.50 each.

Copper Glow Creeper. HW. Variation of the above, with creeping, branching habit. Fine for trailing down embankments. \$1.50 each.

Cl. Devoniensis. CT. A fine climbing sport of the very fine Old Tea Rose, sometimes called the "Magnolia Rose." \$1.00 each.

Dr. W. Van Fleet. HW. Flesh-pink; double; profuse bloomer. One of the most beautiful of Roses.

Cl. Etoile de Hollande. CHT. Sport of the popular bush variety, and identical in every way except for its climbing habit.

Frederick S. Peck. HW. Deep grenadin-pink with yellow center; semi-double. A Brownell aristocrat. \$1.50 each.

Golden Glow. HW. Perfect in color and form; beautiful cadmium-yellow buds and flowers on strong lateral stems. A fine Brownell climbing Rose. \$1.50 each.

Cl. Killarney. CHT. Sport of bush Pink Killarney. Vigorous; free flowering.

Lamarque. N. Medium size; double, full; very fragrant; pure white, lemon center. Growth vigorous; free flowering over long season.

Cl. Luxembourg. CHT. Here is an excellent climbing Rose, a sport of the bush variety but far more vigorous. Deep yellow; full, double.

Marechal Niel. N. Deep yellow. A great Southern favorite and a specialty with us. \$1.00 each.

Cl. Marie van Houtte. CT. Something new in Climbing Teas. Originated on the grounds of Miss Hattie Brandon, Thomasville, Ga. Has flowers and foliage identical with the bush variety. \$1.00 each.

Mary Wallace. HW. Large; deep pink. Profuse spring bloomer.

Mermaid. HB. A charming single Rose. Like Cherokee, except that it is deep yellow and blooms later. \$1.50 each.

Mme. Gregoire Staechelin (Spanish Beauty). HW. A delightful pearl-pink climbing Rose. Very profuse bloomer in the spring.

Cl. Mrs. Charles Bell. CHT. A vigorous climbing sport of the popular bush Rose. \$1.00 each.

Paul's Scarlet Climber. HW. The most popular climbing Rose in the Southeast. Brilliant scarlet flowers borne in profuse clusters in the spring. \$1.00 each.

Cl. Pres. Hoover. CHT. Identical with the bush variety in flower; far more vigorous in growth.

Cl. Radiance. CHT. A most valuable addition to the collection of Climbing Hybrid Teas. Identical in size of flower and color with the bush variety.

Cl. Red Radiance. CHT. A choice red climbing Rose; sport of the bush Red Radiance. Excellent flowers over a long season.

Reine Marie Henriette. CT. This excellent old cherry-red climber held first place in its class for many years. Buds pointed; flowers large. Strong grower.

Reve d'Or. N. Buff-yellow; medium size; fragrant. Foliage rich green, extending to base of plant. A great favorite.

Solfaterre. N. Flower large, double, light yellow, slightly fragrant. Growth vigorous, like Lamarque in habit.

Cl. Talisman. CHT. A vigorous sport of bush Talisman; identical in color, continuous in bloom. If you have not done well with the bush type, you should try this fine climber.

White Banksia. Profuse clusters of small, double white flowers. Blooms very early.

Yellow Banksia. First Rose to bloom in the spring. A profusion of small, double, deep yellow flowers in clusters, on a rank-growing vine. \$1.00 each.

CL. CECILE BRUNNER

AMERICAN PILLAR

DAINTY BESS

PAUL'S SCARLET CLIMBER

DECIDUOUS TREES and SHRUBS

Here are some of the most desirable and popular trees and shrubs for home plantings. They serve a variety of uses in the border, along boundary lines between properties, and as lawn specimens. Given reasonable care, they will increase in beauty for many years. Choose the right shrub or tree for each particular location and you will be more than pleased with the effect.

EXCEPT WHERE NOTED

5 or more at 10 rate; 50 or more at 100 rate

ALTHEA. Free-flowering shrub or small tree. Single-flowering varieties in Red, Pink, Purple, Variegated, and White. 2-yr. only.

CALYCANTHUS floridus. The Sweet Shrub of old-fashioned gardens. 1-yr. only.

CERCIS canadensis (Redbud). With the first touch of spring this native tree is covered with reddish purple flowers. 1-yr. only.

CORNUS florida (Dogwood). The native White Dogwood is one of the best flowering trees. \$1.00 to \$5.00 each.

C. florida rubra. A pink form of the above. \$2.00 to \$5.00 each.

CYDONIA japonica (Flowering Quince). Flowers in winter. Red, White and Pink varieties. 2-yr., 3-yr.

EXOCHORDA grandiflora (Pearl Bush). Large white flowers in earliest spring. 1-yr. only.

FORSYTHIA (Golden Bell). Late winter- and spring-flowering shrubs with golden yellow flowers. We have upright and drooping kinds.

LAGERSTRÆMIA (Crape-Myrtle). A vigorous shrub or small tree with beautifully fringed flowers in summer. We have Watermelon-Red and White. 2-yr. only.

LONICERA fragrantissima (Upright Bush Honeysuckle). Masses of fragrant, creamy white flowers in midwinter. 1-yr., 2-yr.

PRUNUS persica (Double-flowering Peach). Three varieties—Pink, Red, White. 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.50 each.

SPIRÆA. Indispensable shrubs for mass or border plantings. All sizes. We supply:

S. Reevesiana. Upright; double; white.

S. Vanhouttei (Single Bridal Wreath).

S. Thunbergi. Dwarf; white.

WEIGELA rosea. Vigorous shrub producing a wealth of pink, bell-shaped flowers in early spring. 1-yr., 2-yr.

Miscellaneous Plants for Your Garden

Amaryllis vittata Hybrids (Giant Lily). Flowers very large, in a wonderful range of color—red, maroon, rose, splashed pink, striped and variegated. We cannot guarantee colors, but ours is a good strain and all flowers will be large. Flowering size, \$1.00 to \$1.50 each.

Bambusa argentea. Vigorous growers, good for hedges and screens. Handsome foliage and canes which will grow 20 feet. Clumps, \$1.00 to \$5.00.

B. falcata. A very handsome clump Bamboo, with fern-like leaves. Rarely grows taller than 12 feet. May be kept pruned low as a hedge. Will grow in very shaded places and next to trees, as well as in full sun. Clumps, \$1.00 to \$5.00.

Hedera algeriensis (Algerian Ivy). Largest leaves. Fine for a ground-cover or to cover trunks of large trees, in dry, shaded places where grass or shrubs will not grow. 2½-in. pots, 25 cts. each, \$2.00 for 10, \$17.50 per 100.

H. Helix (English Ivy). Makes an excellent evergreen covering for walls and trunks of trees. Medium-sized dark green leaves. Rooted runners, 2½-in. pots, 25 cts. each, \$2.00 for 10, \$17.50 per 100.

H. maderensis (Maderian Ivy). Almost as large leaves as Algerian Ivy. Dark bronzy green. Rooted runners, 2½-in. pots, 25 cts. each, \$2.00 for 10, \$17.50 per 100.

Trachelospermum jasminoides (Star Jasmine; Confederate Jasmine). Finest of all evergreen vines for the Lower South. Fragrant, creamy white flowers in great profusion in late spring and summer. Medium-sized, dark evergreen foliage. Medium plants, 75 cts. each, \$7.50 for 12.

Violet, Governor Herrick. Very large; deep purple; highly fragrant. The finest of Violets for the Lower South. 15 cts. each, \$1.50 for 12, \$10.00 per 100.

Wisteria chinensis. Two varieties, Purple and White. Our Wisterias are grown from free-flowering plants and are not to be compared with seedlings. \$1.50 each.

HJORT'S Chinese MAGNOLIAS

One of the finest and most satisfactory spring-flowering trees for the Lower South. For years we have made a specialty of growing well-branched Chinese Magnolias.

Magnolia Alexandrina. A giant form of the pink *M. Soulangeana*. 18 to 24 in., \$5.00 each.

M. conspicua. The white Chinese Magnolia. Very rare and choice. 18 to 24 in., \$7.50 each.

M. Lennei. Very large, dark purple; very rare. 18 to 24 in., \$5.00 each.

M. liliflora. Large, light purple flowers. 18 to 24 in., \$3.00; 2 to 3 ft., \$5.00 each.

M. Soulangeana. The pink Chinese Magnolia. A great favorite where known. 18 to 24 in., \$3.00; 2 to 3 ft., \$5.00 each.

M. Soulangeana nigra. Deep purple form of *M. Soulangeana*. 18 to 24 in., \$3.00; 2 to 3 ft., \$5.00 each.

WEIGELA ROSEA

FORSYTHIA (Golden Bell)

DO NOT WAIT

Until you see flowering trees and shrubs in bloom to plant them. Set them in the fall or winter for best results.

CYDONIA JAPONICA
(Flowering Quince)

Broad-Leaved EVERGREENS

The Lower South is indeed fortunate in its wealth of broad-leaved evergreens. Many of them have beautiful blooms and berries—a distinct advantage over conifers. With the use of broad-leaved material one is able to get definite contrasts in color and size of foliage, blossoms over a long period, low-growing and tall-growing, columnar or spreading plants, as the location demands.

It is in flowering shrub borders and foundation plantings that broad-leaved evergreens are most effective, but many are used to screen outbuildings, as individual specimens and in

hedges. Apart from their wide adaptability and ease of growth, they stand pruning exceptionally well.

Far above the average are the thrifty, compact, well-growing broad-leaved evergreens we have grown in our nursery fields. Those who wish top quality are invited to see them.

Extra-Select Quality. All of our broad-leaved evergreens are field-grown plants of finest quality. These plants have had all the pruning, fertilizing, and cultivating it takes to make the best. You will be pleased with them.

ABELIA grandiflora. Well-known evergreen with dark green leaves and small white flowers from May till frost. Useful in flowering borders, foundation plantings and hedges.

	Each	10	100
12 to 18 in.....	\$0 60	\$5 50	\$50 00
18 to 24 in.....	80	7 50	60 00

CLEYERA japonica. One of the most beautiful of evergreens for this section. Thick, waxy, dark green leaves. Creamy white, fragrant flowers.

	Each	10
18 to 24 in.....	\$2 00	\$17 50
2 to 3 ft.....	3 50	30 00
3 to 4 ft.....	5 00	40 00

FEIJOA Sellowiana. One of the most beautiful and satisfactory of all evergreens. Bluish green foliage. Compact growth. Brilliant crimson and white flowers in summer. Use more Feijoa and less ligustrums and pittosporums.

	Each	10
12 to 18 in., balled & burlapped..	\$1 00	\$9 00
18 to 24 in., balled & burlapped..	2 00	17 50
2 to 3 ft., balled & burlapped...	3 00	27 50
3 to 4 ft., balled & burlapped...	4 00	30 00

GARDENIA florida. Cape Jasmine. Sweet-scented white flowers. Well known and very popular.

	Each
18 to 24 in.....	\$2 00
2 to 3 ft.....	3 50

G., Mystery. Very fast grower with larger blooms than the preceding.

	Each
18 to 24 in.....	\$2 50
2 to 3 ft.....	4 00

ILEX (HOLLY). Our Hollies are grown from cuttings or grafted from heavy bearing specimens, insuring handsome plants. Dug with good ball of earth.

I. cornuta Burfordi (Burford's Holly). This variety has few or no spines and is of more rapid growth than *I. cornuta*. Very dark, shiny green foliage, which holds its lustrous color throughout coldest weather. Large, red berries all winter.

I. cornuta femina. Like *I. cornuta Burfordi* but has leaves of five spines.

I. crenata (Japanese Holly). 4 ft. An evergreen shrub, 4 feet high, with oval, crenate leaves. Black berries. Good for low plantings, such as around foundations. Rather slow in growth and perfectly hardy.

Prices of Ilex cornuta Burfordi, femina and crenata

	Each	10
18 to 24 in., balled & burlapped..	\$3 00	\$27 50
2 to 3 ft., balled & burlapped..	5 00	40 00
3 to 4 ft., balled & burlapped..	7 50	60 00

I. Dahoon (Dahoon Holly). A fine native Holly, making a small tree. Narrow, glossy leaves.

	Each
2 to 3 ft.....	\$3 50
3 to 4 ft.....	5 00
4 to 5 ft.....	7 50
5 to 6 ft.....	10 00

THOMASVILLE NURSERIES
THOMASVILLE, GEORGIA

Ilex Opaca (American Tree Holly). All of our plants of this well-known native Holly are grown by grafting from heavy bearing plants. Choice specimens.

	Each
4 to 5 ft., balled & burlapped.....	\$7 50
5 to 6 ft., balled & burlapped.....	10 00

I. Opaca-Dahoon Hybrid. A new Holly, our favorite of them all. Foliage like Opaca, but some lighter and large red berries like Dahoon; bears on small plants. Those who love Hollies should plant one or more of this choice variety. Prices same as *I. Dahoon*.

JASMINUM primulinum. A graceful, drooping evergreen with dark green leaves. Large yellow flowers in spring.

	Each	10
2-yr., very compact.....	\$0 75	\$7 00
3-yr., very compact.....	1 00	9 00

LIGUSTRUM lucidum (Wax-Leaf Privet). Dark, glossy foliage. Ours is a very select strain of this variety. The most useful of all Privets in landscape plantings.

	Each	10
12 to 18 in., balled & burlapped..	\$1 00	\$9 50
18 to 24 in., balled & burlapped..	2 00	17 50
2 to 3 ft., balled & burlapped...	3 50	32 50

MAGNOLIA grandiflora (Southern Magnolia). The grandest of all our native broad-leaved evergreens, making a stately tree with large leaves and conspicuous, large, fragrant white flowers.

	Each
3 to 4 ft., bare roots.....	\$3 00
4 to 5 ft., bare roots.....	5 00

Balled and burlapped, double above prices.

NANDINA domestica. A most striking plant in winter when the normally green leaves turn a brilliant red. Our Nandinas are the superior large-leaf varieties and bear large clusters of red berries. Extremely valuable in landscape effects, growing in full sun or much shade.

	Stocky Plants	Each	10
8 to 12 in., bare root.....		\$0 75	\$7 00
12 to 18 in., bare root.....		1 00	9 00

An Azalea garden in full bloom is a wondrous sight. In our Gulf and coastal Southland a succession of varieties blooms four months.

For Distinctive Lower South Gardens

Azaleas and Camellias add grace, beauty and charm to gardens of the Lower South.

"Design in the garden is rightly regarded as of primary importance, and the kinds of plant material used in securing a desired effect are a secondary consideration. But if, in addition to pleasing design, the planting can be carried out with beautiful and out-of-the-ordinary plants, than gardens of unusual beauty result. To such plant groups belong the azaleas and camellias, and gardens in which they are used in a large way are immediately lifted out of the commonplace. They take the places of good evergreen or deciduous shrubs, and, in addition, at certain seasons fill the garden with a glory that is unsurpassed."

Dr. H. Harold Hume, eminent horticulturist, writer, and dean of the College of Agriculture, University of Florida, wrote the above as an introduction to his valuable little book, "Azaleas and Camellias," and it well expresses what we would say to those who would have distinctive gardens in the gulf and coastal section of the Southeast.

For many years we have given particular attention to winter and early spring-flowering material, especially Azaleas, offering a large assortment of hardy Kurume, Kaempferi and native varieties which may be grown and will succeed much farther inland than Indica Azaleas and Camellias. However, among Indica Azaleas we grow the hardier Lawsall, Dixie, Formosa, and Pride of Mobile extensively. Our Azaleas are above the average in quality, having been spaced out properly and grown well.

Visit Hjort's Azalea Woodland

March is the month of Azaleas, at which time the midseason varieties are at their height, and these contain the greatest range of color and form. In March we are glad to have visitors come on Sunday afternoon and enjoy with us the wonderful display of Azalea bloom at Hjort's Azalea Woodland, two miles east of Thomasville on the paved State Road No. 38. Late Azaleas, including beautiful native varieties, bloom far into April.

Enlarged and ample parking facilities are provided and conveniently placed signs guide you easily through the Azalea plantings. All the main roads into Thomasville are paved, and visitors from many cities in this section have found it a delightful Sunday afternoon trip to drive over to see the Azaleas at Hjort's Azalea Woodland.

Absolutely no admission charge or collections taken and nobody is asked to buy. This is the greatest display of Azalea color and varieties in this section. Come and enjoy it with us.

AZALEA and CAMELLIA FERTILIZER

For maximum growth, bloom, and general well-being, it is necessary to feed your plants properly. Unfortunately for the Azalea and Camellia grower, most commercial fertilizers are made neutral by the use of limestone, and are not suitable for acid-loving plants.

To meet this need we keep in stock Reliance Azalea and Camellia Special, a commercial fertilizer which is acid, easy to apply, and has no objectionable odor. It supplies a balanced and complete food for these plants. With your purchases you will receive a little booklet giving much information on the planting and care of Azaleas and Camellias.

Prices of Reliance Azalea and Camellia Special Fertilizer: 25 lbs. \$1.50, 50 lbs. \$2.50, 100 lbs. \$4.00, f.o.b. Thomasville, Ga.

TWELVE KURUME AZALEAS. Good for pot-culture, excellent for outdoor planting in the Lower South.

HJORT'S *Kurume Azaleas*

The Kurumes, natives of Japan, fully one thousand miles farther north than the native habitat of the Indica varieties, are by far the hardiest Azaleas, and in the Lower South have stood perfectly the freezes which damaged more tender kinds. The Kurume Azaleas, contrary to popular belief, are not all dwarf growers. There are medium and tall kinds, and the widest assortment of color. We have developed a large stock of these dependable Azaleas, and our prices are lower than these plants can usually be bought for, while the quality is the best. Our plants, from smallest to largest, are shapely and well set with buds. All varieties have evergreen foliage.

PRICES OF KURUME AZALEAS

	Each	10	100		Each	10
6 to 8 in...	\$0 75	\$7 00	\$60 00	12 to 18 in.....	\$2 50	\$22 50
8 to 10 in...	1 00	9 00		18 to 24 in.....	4 00	30 50
10 to 12 in...	1 50	14 00				

5 or more plants at 10 rate; 50 or more at 100 rate
Larger specimen plants \$5.00 to \$50.00 each

VARIETIES OF KURUME AZALEAS

The double varieties are marked thus; all other varieties are single.

Apple Blossom. Single flowers; apple-blossom color. Midseason. 8 to 10 in.

Avalanche. Large clusters of single white flowers. 8 to 10 in.

Bridesmaid. Glowing salmon-pink; small glossy foliage. Midseason.

***Cherry Blossom.** A favorite of the tall growers; very light pink. Somewhat late in flowering. 8 to 10 in.

***Christmas Cheer.** Brilliant bright red; the small foliage is very dark green and compact. The earliest of the red Kurumes. Medium. All sizes.

***Coral Bells.** Beautiful shell-pink, shading somewhat deeper at center; free flowering and dainty. The dwarfest of the dwarfs; ultimate height 4 feet. Early. 6 to 8 in. to 12 to 18 in.

Daybreak. Large clusters of shell-pink flowers. Midseason. 6 to 8 in. to 12 to 18 in.

E. K. James. Large flower for a Kurume; deep flame-red. Tall grower. Late. Seedling originating with us, and named in honor of the late vice-president of our corporation. 12 to 18 in., 18 to 24 in.

Enchantress. Large, deep salmon-rose flowers borne in great profusion. A vigorous, new and delightful Kurume variety. 8 to 10 in., 10 to 12 in.

Flame. This Flame Azalea is one of the best of the Kurumes and one of the tallest growers. Midseason. All sizes.

***Hexe.** Large, deep red flowers. Late bloomer. 6 to 8 in. to 12 to 18 in.

Hinomayo. Beautiful rose-pink; foliage small; profuse bloomer. Often used as a background planting for Coral Bells. Tall; early. 8 to 10 in.

Hinodegiri. Brilliant scarlet; foliage rounded and deep green. A midseason bloomer, coming into flower just before Christmas Cheer has finished. Medium. All sizes.

Hoo. Single white flowers with pink edges. One of the fastest growing Kurumes. All sizes.

***Hortensia.** One of the taller growers of the pink Kurumes. Midseason. 8 to 10 in. to 12 to 18 in.

Lavender Queen. A Kurume often used to edge the Indica Azaleas Phœnicia and Formosa. Medium; late. 8 to 10 in.

***Lorraine.** Large, deep pink Hexe-like flowers. Late. 6 to 8 in., 8 to 10 in.

Peach Blow. A fine Kurume with flowers of light peach-blossom-pink. One of the fastest of the Kurumes. Tall; midseason. All sizes.

***Pink Pearl.** Light pink, produced in dense clusters. Tall; midseason. 6 to 8 in. to 12 to 18 in.

***Salmon Beauty.** Large; salmon-pink. Free flowering. Midseason. 8 to 10 in.

Salmon Queen. This salmon-colored Kurume Azalea is one of the best of the single-flowering kinds. Medium; midseason. 8 to 10 in.

***Snow.** The best of the white Kurumes. Medium; midseason. All sizes.

***Sweetheart Supreme.** One of the loveliest of double-flowering Azaleas; light rose-pink. 10 to 12 in. to 18 to 24 in.

Vesuvius. Deep flame-red. Vigorous, tall grower. Late. All sizes.

***Yayegiri.** Deep, flame red flowers in great profusion. Late. 12 to 18 in.

Azalea macrantha. Late spring and summer-flowering Azalea, fine for greatly extending the flowering season. Single and double pink kinds. Evergreen foliage. Same sizes and prices as Kurume Azaleas.

Extra-Fine Specimen Azaleas

This season we are rearranging some of our heretofore permanent plantings of Azaleas and offer at slightly higher than catalog prices some very compact, extra-select specimens that should be seen to be appreciated.

HJORT'S *Indica Azaleas*

Azaleas are the most attractive of the winter- and spring-flowering shrubs in the Lower South. Varieties of Indica Azaleas, which are mostly tall growers with a profusion of single flowers, are a mass of beauty on the northern estates and at Hjort's Azalea Woodland from February till April. All of the Azaleas we offer are stocky, well-grown plants, set with the maximum of flower-buds.

GROUP I AZALEA INDICA

The faster-growing varieties of Azalea indica, generally characterized by large leaves, hairy underneath, and medium to large flowers.

PRICES OF GROUP I AZALEA INDICA			
	Each	10	
8 to 12 in., bare root.....	\$0 75	\$7 00	
12 to 15 in., bare root.....	1 00	9 00	
15 to 18 in., B&B.....	1 50	14 00	
18 to 24 in., B&B.....	2 00	17 50	

Elegans. Light, clear pink. Makes large, symmetrical bush. Very early bloomer. A feature of Hjort's Azalea Woodland. 8 to 12 in. to 15 to 18 in.

Formosa. Greatest of all Azaleas. Large, purplish pink flowers; bush grows large and shapely. Darkest green foliage of all Azaleas. Easy to grow. Late bloomer. All sizes.

Phoenicia. Similar in color to Formosa, but bush grows very compact and rounded. Late. All sizes.

Vittatta fortunei. Picturesque, open-growing Azalea. Blooms very early, often in fall, stops in cold weather, and blooms again in spring. 18 to 24 in.

William Bull. Tall, open-growing plant, producing quantities of pomegranite-red, small double flowers. Very late. 15 to 18 in., 18 to 24 in.

PRIDE OF DORKING

Finest Specimen Azaleas

We have some large and very large specimen Azaleas. We would be pleased to quote those who are interested.

GROUP II AZALEA INDICA

Mostly medium growers, generally more compact and of less rapid growth than Group I. Very profuse and showy.

PRICES OF GROUP II AZALEA INDICA			
	Each	10	
8 to 12 in., bare root.....	\$1 00	\$9 00	
12 to 15 in., B&B.....	1 50	14 00	
15 to 18 in., B&B.....	2 00	17 50	
18 to 24 in., B&B.....	3 00	27 50	
2 to 3 ft., B&B.....	5 00	40 00	

Alba. Large; single; white. Tall; midseason. All sizes.

Brilliant. Brilliant deep pink. Small, bushy grower; late. 8 to 12 in., 12 to 15 in.

Dixie. This salmon-red is one of the finest of the Indica Azaleas. Mid-season. This lovely Azalea is one of the hardiest and most satisfactory of all. 12 to 15 in., 15 to 18 in.

Duc de Rohan. Medium-sized; salmon-pink. Early. All sizes.

Fielder's White. Large; pure white. Early. 8 to 12 in., 12 to 15 in.

George Frank. Large; rose-pink with deeper center, one of the loveliest of all Azaleas. Compact; early. 8 to 12 in.

Geo. L. Taber. Our finest variegated Azalea. Blush-pink with markings of deeper pink and red. Tall, large, late. 8 to 12 in., 12 to 15 in.

Iveryana. The favorite variegated Azalea. Large, white flowers, striped pink and orange. Of spreading habit; late. 8 to 12 in., 12 to 15 in.

Lawsal. Bright salmon-pink. Tall, bushy grower; late. We highly recommend Lawsal as one of the hardiest and most beautiful of Azaleas. All sizes.

President Clayes (Flame). One of the best of all Azaleas. Flame-red, a delightful color through pine woodland or fronting a dark background. Rather early bloomer for darker-colored Azalea. All sizes.

Pride of Dorking. Rose-red; large flower. Late. 12 to 15 in., to 18 to 24 in.

Pride of Mobile. Deep watermelon-pink; large flower. Late. Very satisfactory. All sizes.

Prince of Orange. Scarlet. Low, spreading compact; late. 12 to 15 in.

Royal Purple. Variable single and semi-double flowers of violet-purple; foliage dark green. Habit compact. A very good Indica variety. 12 to 15 in. to 18 to 24 in.

IMPORTANT NOTICE

Since sending catalogue copy to the publishers in the summer, some items have been sold out. Of the 105 Rose varieties listed, 15 are sold out as follows:

Copper Glow Creeper, Climbing Killarney, Lamarque, Frederick S. Peck, Solfaterre, White Banksia, Yellow Banksia, Eclipse, Gruss an Aachen, Soeur Therese, Mrs. R. M. Finch, Georg Arends, Papa Gontier, La Sylphide, Louis Phillippe. We have stock of the other 90 varieties.

While we have more A,aleas this season than in several years, we are sold out of the following: Apple Blossom, Lavender Queen, Hortensia, Yayegiri, Macrantha, Vittatti fortunei, Iveryana, Pride of Dorking, and Prince of Orange. We have stock of all the other varieties.

In Camellias, we have some very fine plants, but are sold out of the following: Eleanor Hagood, Finlandia, Firegold, John Illges, Louise Macley, Marchioness of Exeter, Marchioness of Exeter Variegated, Martha Brice, Marion Mitchell, Marion Mitchell Variegated, Arajishi, Blush Hibiscus, Flame Variegated, Lady of the Lake. As we mail the catalogues we have stock of all the other varieties.

In Chinese Magnolias we are sold out of Alexandrina and Conspicua.

Actually, the percentage of sold out items is small in comparison with many varieties listed.

Thomasville, Georgia

LIRIOPE MUSCARI THE BIG BLUE LIRIOPE

No one who has seen showy *Liriope Muscari* in bloom at Thomasville throughout the summer will ever forget the colorful sight. This is truly the most useful of all border plants. It grows well in dense shade or in the full sun. It is used to border walks and beds, on slopes to prevent washing, as a ground-cover, in porch-boxes and as potted plants. Averages 8 to 12 inches in height and spread.

Liriope Muscari is so easy to grow it is foolproof. While it thrives best in light but enriched soils, it will persist in well-nigh impossible hard and heavy soils. And though it will bloom in any location, the foliage is of better dark green color when planted in shade or partial shade. *Liriope* plants may be set any time of the year, and several years later may be dug, divided into at least four times the quantity, and the planting extended.

Our *L. Muscari*, sometimes listed as *L. graminifolia densiflora*, is genuine, grown from divisions only. We grow no seedlings, since they usually revert to the small-leaf type with light, stringy flowers of short duration. Our division-grown *L. Muscari* has wide leaves and produces uniform, heavy spikes of deep lavender-blue flowers over a long season. Plant 6 inches apart for continuous line.

Liriope is so hardy it may be planted in the entire South. If you are not ready to plant a border, try a dozen or more plants. You will be pleased.

Kurume Azaleas are used effectively in border plantings

I THINK that Kurume Azaleas are the loveliest of all Azaleas. Small of stature but sturdy, they are rich in attractive features. The branches are very numerous and twiggly, clothed with small, neat, rich green leaves and crowned with clusters of small, slightly fragrant flowers, which on different individuals embrace all the delicate shades familiar to us in Sweet Peas.

"The flowers, each about one-half to three-quarters of an inch across and borne in clusters of from two to several at the end of the twigs, come in such profusion as to almost hide the leaves. The colors are so pure and exquisite, are of every hue and shade—pure pink to rose-color, cerise, lavender, vermilion, salmon, bright red to scarlet, crimson and the richest magenta; others the purest white."—Ernest H. Wilson, in his delightful book, "Plant Hunting."
